

# PLAN YOUR FUTURE!

Answer these five questions to help you learn what type of college you should attend. Then, get a more realistic picture of the future by completing the planning questions at the bottom of the page.

1. I like when my teacher:
  - a. Gives us projects and I participate
  - b. Gives lectures and I take notes
2. I would rather go to:
  - a. College for two years
  - b. College for four or more years
3. I would rather:
  - a. Fix something with my hands
  - b. Read about a new topic that interests you
4. I like:
  - a. Short-term projects where I can see the results
  - b. Long-term projects where I can set goals
5. I am a better:
  - a. Creator
  - b. Planner

## If your answers are...

**Mostly A's:** Look into community colleges and apprenticeships, where you'll get more hands-on time. But remember that ultimately, your career goal will determine the kind of training you need. You may be able to do a lot of projects or work with your hands at a four-year college, too.

**Mostly B's:** Look into four-year colleges and universities. If your career goal leads you elsewhere, don't worry — a love of learning will come in handy in any setting.

## Your High School Plan

If you're not sure what type of training you'll need or which careers match your interests, start your research at **LearnMoreIndiana.org**.

My career goal is \_\_\_\_\_  
(Example: High School Chemistry Teacher)

The degree(s)/credential(s) I will need are \_\_\_\_\_  
(Example: Bachelor's degree in Secondary Education and teaching license)

In high school, I will prepare by:  
Earning this high school diploma: \_\_\_\_\_

Taking these courses: \_\_\_\_\_

Taking these college entrance exams (SAT, ACT, ASVAB, etc.): \_\_\_\_\_

Participating in these extracurricular activities: \_\_\_\_\_
