Welcome to Learn More Indiana's Elementary School Educator Guide!

Learn More Indiana (LMI) is excited to present the educator guide for elementary schools for the 2024-2025 school year. We hope you and your students find these career and college-focused worksheets enjoyable. These resources are perfect to use during the Indiana College GO! campaign on **September 23-27, 2024**. But you can still encourage your students to explore post-high school opportunities throughout the year. We understand that high school and beyond may seem distant, but it's never too early for students to start considering their future. Please make copies of the following pages and share them with your students! There are various activities suitable for different age groups, so feel free to adjust them to best fit your students.

Worksheet Breakdown:

What makes you happy?

Have students take time to think about and draw some things in their life that make them happy! Talk about the importance of doing things that bring them joy!

Create Your Own Diploma

Give students time to fill out their "diploma" and then have them draw a picture that represents their future.

Career Hat Match

Have students label the hats and match them to their career.

Create a Grad Cap!

Let students think about their graduation day then color and create whatever they want their graduation cap to look like. You can have students cut out their hats and hang them around the class or hang in the hall during College GO! week! Teachers, get involved too!

Interview an Adult

Encourage students to interview an adult they are close to and learn about their journey to get to where they are today.

Word Match

Talk to students about how the things they are learning today will help them in the future! Help students determine what school subject the items are referencing. Then, have them match the subject to a possible career they could find in that area.

My Dream School

Have students take time to look into universities around the state. Then have them create their perfect school!

Picture Yourself In Middle

Prepare students for middle school by telling them about some changes they will see in the upcoming years. Have them think about their future and complete the worksheet.

Word Search

Encourage students to take time to learn and study the college vocabulary words used in the word search.

ADDITIONAL LEARN MORE INDIANA RESOURCES AND ACTIVITIES
