What is a career interests assessment and why is it important?

A career interests assessment is like a personality test. You'll be asked questions about activities that interest you and about your future goals. Remember to answer these questions as truthfully as possible. After answering the questions, you'll be given career options that may align with your interests and goals.

Once you have an idea of what careers you may be interested in, take some time to research the type of post-high school education you'll need.

The 21st Century Scholarship covers up to a bachelor's degree, but you can get additional education right after college or further down the road.
